Residencies Located.
>Loughborough, Leicestershire, UK.
>East-Finchley, North London, UK.

About:

Second-year industrial design student, looking for a challenging and rewarding work placement job starting summer of 2021 and ending summer of 2022. My primary design interest stems from the consideration of user experience and empathic design, with influences from contemporary art and design, as well as biomimicry. However, my design knowledge and experience is not confined to this. I have great communications skills and feel perfectly comfortable both working as part of a group or working alone.

Education (Relevant).

- > Three A-Levels (A-B).
- > Second year Industrial Design and Technology, Loughborough University (current).

Work Experience (Relevant).

- > Work shadowing - CWD London.

Skillset.
